**glowing with confidence*

Give your wardrobe a colour lift this spring with Kettlewell...go on, take a look

My regular clients will testify how fantastic a resource this company's products are for their wardrobes! They have just launched their S/Summer 2010 collection with new additions as featured below. Constantly listening to client feedback, they improve season upon season. I recommend every woman should have a **wrap dress** in their wardrobe

– no matter what age, shape, size or colouring there is one out there for you! This one flares very gently from the waist making it great for most shapes, highlighting your waist and décolletage very nicely. The collar makes it

suitable for work and the soft jersey fabric easy to wear for smart casual. Dress it up with accessories and you are ready for any occasion. It comes in 6 plain colours and also a funky print – 1 for cool skin tones and 1 for warm. At £69/79 it gives great cost-per-wear value. I've already worn mine 3 times in the last week!

If dresses are not your thing (as many of my clients will have said before they met me!) then consider

this next option – a **long soft jersey cardigan** that cascades and flatters when worn open and loose or very flattering when worn as a wrap with a belt over jeans – that's my favourite option. Some of you will have seen me wearing mine recently – I get

lovely comments every time I wear it! It even ties like a bolero when the mood takes me – so 3 tops in 1 for £42.

If you would like to see the colours and styles in the flesh, drop me a line to view my samples at home. I can also give you advice over the phone too.

It's always worth checking out their **SALE** page.

Currently the popular **ruffled crossover short sleeved top** is 25% off – ideal for the warmer days we should be getting soon!

Go back to the email for their direct website link!

Special Offers – Colour Analysis

You will be delighted to know that between now and the end of April I am running a special offer on Colour Analysis sessions – limited appointments available. Discover which shades make you look younger, taller and slimmer and glow with confidence! **2 people sessions for just £99 each** (usually £119) this includes your individual swatch and pashmina style scarf and a make-up session. For those of you who have already been shown the way, why not recommend this offer to a friend, family member or colleague – don't forget I will send you a lovely gift box from Hotel Chocolat as a thank you!

Group Shopping Trips

Due to popular demand I will also be running a couple of these – up to 4 ladies at a time – over the next few months. If you are interested in saving time, money and stress on your purchases give me a call.

Wardrobe Workouts – Shopping in Your Closet!

Alternatively, you may want to enlist my expert eye

to weed out your wardrobe(s) first? Initial sessions usually last 3 hours but you will have a personal inventory and suggested shopping list at the end of it, not to mention loads more wearable outfits without hitting the shops. Call me to chat through your goals and objectives –

don't forget, it's all about **YOU** and what you want your image to say about you. Until next month!
