A Tip Top wedding will bring Style to You

Sandy Moretta of **TipTop Weddings** has been planning and managing weddings for 5 years and has a host of experience and understanding of what brides are looking for in the run up to their big day. **TipTop Weddings** offers a number of services including Full

Planning and On The Day Management with prices to suit most couples. 'Many brides want help with their wedding look, especially the dress, which is almost invariably the most expensive item of clothing they ever purchase. Teaming up with Fiona means I can offer clients another, valuable service. Whilst I am working with brides on the design of their wedding, Fiona can help them make the best of themselves for their special day – a perfect match in my book' says Sandy.

Style2You's full personalised colour and style consultation will help you through all of those difficult design and colour decisions. Fiona McClurg-Welland, Image Consultant with **Style2You** says:

"Your consultation will identify which colours will

best work for you and maximise your impact on the wedding day. Knowing the right shape of gown or wedding outfit is vital to enhancing your own natural beauty and makes shopping easier. I also guide you through how to plan your capsule honeymoon wardrobe."
